

WHAT IS IT?

Students compared the use, effectiveness, and material of two electronic devices in the target language (Spanish). During the lesson, students had the time to write down any observations focused on use, effectiveness and material of product. Overall, students had the opportunity to practice their reading, writing, speaking and listening skills all while using the target language.

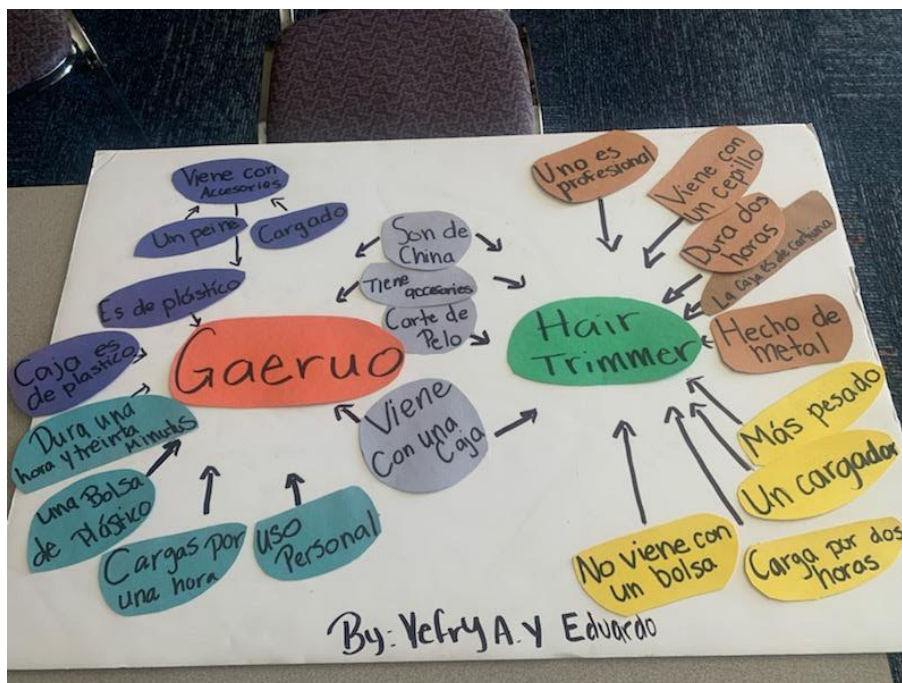

IMPACT?

The overall academic achievement of the students increased in all aspects and not just in the target language. Students developed skills that can be used in other courses and in the real world. As for educators it is an opportunity to enhance learning practices and to implement real world scenarios. Overall, students enjoyed every aspect of the lesson.

Unidad: Ciencia y Tecnología
